

Unit 1

1. Construction, working adv & Disadv of Bag Filters, ESP, Cyclones and Scrubbers
2. Absorption and Adsorption
3. Methods of gaseous pollution control
4. Noise pollution sources, effects, standards- Measurement & Control
5. Methods to control residential noise

Unit 2

1. Volume & strength reduction techniques with examples
2. Equalization, Proportioning definitions
3. CETPs construction and working adv and disad
4. Recirculation of industrial wastes
5. Effluent stds

Unit 3

1. Sources and Characteristics of Solid wastes
2. On-site handling, collection and processing of SWs
3. Composting
4. Incineration
5. Landfilling
6. Hazardous waste sources and characterization and control methods
7. Biomedical waste mgt
8. E-waste
9. Chemical waste sources and treatment

Unit 4

1. Importance of environmental sanitation
2. Environmental sanitation methods of Hostels
3. What are the methods of sanitation in Hospitals, Swimming pools and public bathing places, social gatherings (melas and fairs), Schools and Institutions.
4. Role of Latrines in Rural Sanitation-low cost waste disposal methods.
5. Write a short note on Rural Sanitation-low cost waste disposal methods.

Unit 5

1. Elements of sustainable developments
2. What are the Indicators of sustainable development
3. Explain various Sustainability Strategies
4. Explain the Barriers to Sustainability
5. Write a short note on Industrialization and sustainable development
6. What is the role of Cleaner production in achieving sustainability
